

# EJERCICIOS DE MEMORIA II

Estimula la memoria de trabajo con este cuaderno de ejercicios

1. Recorta o dobla por la mitad todas las hojas, quedando separada la hoja de observación de la hoja de respuesta.

2. Se ha de *mirar* durante unos segundos la figura que hay en la hoja de observación, pasar la página y *escribir o dibujar* lo que se ha observado.
3. Un adulto puede supervisar la actividad o el mismo niño puede volver a la hoja de observación para *comprobar* que lo ha hecho bien.

Observa bien atentamente estos números durante unos segundos. Cuando los hayas memorizado, pasa a la hoja de respuesta y escríbelos en el mismo orden.

1 2 3

HOJA DE OBSERVACIÓN

¿Recuerdas los tres números?

HOJA DE RESPUESTA
